## WOODEN WORKING MAGNIFIER

Ergonomic - comfortable – Natural material

Ref.: C241000 –4x

### MAGNIFIER MADE FROM A NATURAL MATERIAL, FOR BETTER WORKING COMFORT

The refined, lightweight design of this wooden magnifier makes it an ideal partner for a pleasant day-to-day working experience.

Its 4x magnifying lens is suitable for most watchmaking and jewellery jobs.

The groove on its end enables it to adapt to most holding wires on the market, for day-long comfort.

This range of magnifiers, available in a variety of fresh colours, will give the production workshop a customised touch of joy.

It is made from a wood originating from our region, the Jura, thereby reducing its ecological impact.

This magnifier can be given a customised colour and logo, from a certain minimum quantity. Please ask us for more details.

### Technical specifications:

- 4x magnification
- 7 colours to choose from
- Adaptable wire (Ref : C241000-F)
- Magnifier body made from solid beech
- Mineral glass lens

### Size:

Ø40 x 33 mm

### Weight:

12 grams
